#### WEEK 4:

## Complete your application to the opportunity of your choice

---

During Week 4, adult learners will select and begin applications for the educational opportunity of their choice.

**Learning Objective:** Complete the application(s) for the postsecondary option of choice in preparation for Colorado Free Application Day.

application to a two-year college  
application to a four-year college  
application to the military  
apprenticeship application  
job application

**MCJ Tools:** College Admissions Tool, Military.com, apprenticeship.gov, Jobs2Careers

**CAM Activity:** Using the **College Admissions Tool** and various websites, the participants will gather all of the information and begin to complete their application to their opportunity of choice.

#### Tips for Success:

- Confirm the date of Colorado Free Application Day. Participants can prepare their applications this week, but applications to Colorado public and many private institutions may be held until Free Application Day so that application fees don't have to be paid!
- Participants can select only those goals (options listed above) for the applications they wish to complete.
- Participants may want to check out the first few goals in Week 5 (cost of attendance calculations) as they complete their applications.
- Encourage your participants to log into their My Colorado Journey to complete their work to ensure that their work will be saved.
