## Ways to Celebrate CAM

---

- **Create a “Higher Education Wall.”** Participants write the names of the institutions to which they have applied on banners or strips of construction paper to hang in a main hallway. Highlight program names when they receive acceptances. Call on art teachers (if available) for additional promotional materials to decorate the walls of your school. You can also do this virtually through apps like [PhotoCircle](#).
- **Coordinate writing workshops for personal statements or essays.** English teachers can use the [essay template documents created by My Colorado Journey](#).
- **Provide application activities for all students in your school prior to and during your Colorado Applies Month event.** Use My Colorado Journey tools to incorporate grade level appropriate activities for 9th-11th-grade students. Organize workshops during student/family evening events, homeroom with students or sport events.
- **Widely publicize students’ applications.** Interview students and adult learners about their plans and send the articles to local newspapers, public service announcements on local radio, intercom/homeroom announcements or ads in the newspaper. You can also create a special section in the school newspaper that gives the names of seniors and their prospective programs.

Benefits for adult learners- Virtual workshops can offer flexibility for a less distracted environment, workshop can be recorded and delivered at a more convenient time if missed, tools and resources are available immediately, engagement allowing for hands on learning and self-paced opportunities, shorter modules available over a period of time offering time to apply what is learned.
